

OUR SOLUTIONS

FOCUS ON THE BEST POSSIBLE RESULTS

ERP implementation and management specialist

For the best results, you need to focus. Focus on objectives, on processes, and on the ERP solution that not only helps you achieve your ambitions, but can also grow with your ambitions. Focus not only from within your own organization, but also among the partners you trust. Focus Enterprise Solutions is your strategic partner for everything to do with Microsoft Dynamics 365 Finance and Supply Chain Management (Dynamics 365 Unified Operations, formerly F&O). From deployment to management, we help SMEs across different industries get the most out of their ERP.

Dynamics 365 Finance

Looking to automate financial processes such as invoicing and processing and paying supplier invoices? Dynamics 365 Finance will give your organization more control over your finances. What's more, you can create innovative new business processes, restructure them, or grow them faster without running into any obstacles.

Dynamics 365 Supply Chain Management

Build a state-of-the-art supply chain with Microsoft Dynamics 365 Supply Chain Management. From planning to production, from inventory management to logistics. The tool to help you to understand the total performance of the value chain

Extended Banking

Extended Banking has been developed by Focus Enterprise Solutions and provides additional features that are integrated into Dynamics 365 Finance and Supply Chain Management. Transactions are read in, analysed, and processed automatically. It saves you valuable time that can be better spent elsewhere.

Managed Applications

Focus Enterprise Solutions ensures your ERP system implementation goes without a hitch, with Managed Applications. Our knowledgeable and experienced support consultants will look after your environment and make any adjustments you wish over time.

We are part of the Broad Horizon Group. By working with the other companies within the Group, we can offer our customers an end-to-end Dynamics 365 service.
